

Research orientated internships at international organizations for the Master's programs FACT and MSE

Students who participate in the Master's programs FACT and MSE have the opportunity to spend several months at an international organization for a research orientated internship. Specialisations in the fields Finance & Insurance and/or Macroeconomics are desirable.

The internship is supported by a partial scholarship granted by the Staedtler Foundation. The scholarship is connected to a scientific project at the international organization. Results have to be presented in a seminar after the internship.

We are able to offer an internship to at least two students. We cooperate with the European Bank for Reconstruction and Development (London, UK), the International Labor Organization (Geneva, Switzerland) and the European Investment Bank (Luxemburg).

Those who are interested can apply until **19. November 2017**. Please hand in a Curriculum Vitae in English, your bachelor's transcript, the grades during your Master's degree, evidence of your English skills and a brief letter of motivation. Please send your application to nadine.gatzert@fau.de and to christian.merkl@fau.de. We also ask you to shortly state whether you have a preference for the EBRD, EIB or ILO.

A preliminary selection will be made jointly by Professors Nadine Gatzert, Christian Merkl and Hendrik Scholz. The best applicants will then be handed on to the EBRD, EIB and ILO where the final decision will be taken.
